Canadian Journal of Botany

Revue canadienne de botanique

Volume 71, 1993

Contents / Sommaire

JANUARY/JANVIER

ARTICLES

Kathleen B. Pigg, Ruth A. Stockey, and Suzette L. Maxwell ***Paleomyrtinaea***, a new genus of permineralized myrtaceous fruits and seeds from the Eocene of British Columbia and Paleocene of North Dakota **1**

Peter Kuhry, Barbara J. Nicholson, L. Dennis Gignac, Dale H. Vitt, and Suzanne E. Bayley Development of *Sphagnum*-dominated peatlands in boreal continental Canada **10**

Paul Bayman and Peter J. Cotty Genetic diversity in *Aspergillus flavus*: association with aflatoxin production and morphology **23**

W.C. Mueller and A.T. Morgham Ultrastructure of the vascular responses of cotton to *Verticillium dahliae* **32**

John S. Campbell, John M. Mahoney, and Stewart B. Rood A lack of heterosis in natural poplar hybrids from southern Alberta **37**

Madeline L. Maley and William H. Parker Phenotypic variation in cone and needle characters of *Pinus banksiana* (jack pine) in northwestern Ontario **43**

G. Hausner, J. Reid, and G.R. Klassen On the subdivision of *Ceratocystis* s.l., based on partial ribosomal DNA sequences **52**

Harro J. Bouwmeester and Cees M. Karssen The effect of environmental conditions on the annual dormancy pattern of seeds of *Spergula arvensis* **64**

James R. Kemp, Usher Posluszny, Jean M. Gerrath, and Peter G. Kevan Floral development of *Rosa setigera* **74**

Sankaran KrishnaRaj, Bruce T. Mawson, Edward C. Yeung, and Trevor A. Thorpe Utilization of induction and quenching kinetics of chlorophyll *a* fluorescence for *in vivo* salinity screening studies in wheat (*Triticum aestivum* vars. Kharchia-65 and Fielder) **87**

Vilis O. Nams, Nicholas F.G. Folkard, and James N.M. Smith Effects of nitrogen fertilization on several woody and nonwoody boreal forest species **93**

Marek J. Krasowski and John N. Owens Ultrastructural and histochemical postfertilization megagametophyte and zygotic embryo development of white spruce (*Picea glauca*) emphasizing the deposition of seed storage products **98**

Rytas Vilgalys, Ajiri Smith, Bao Lin Sun, and Orson K. Miller, Jr. Intersterility groups in the *Pleurotus ostreatus* complex from the continental United States and adjacent Canada **113**

I.R. Mackun, S.J. McNaughton, D.J. Raynal, and D.J. Leopold Comparative foliage and twig chemistry of co-occurring *Myrica gale* and *Chamaedaphne calyculata* **129**

T. Miedaner, Henriette Höxter, and H.H. Geiger Development of a resistance test for winter rye to snow mold (*Microdochium nivale*) under controlled environment conditions in regard to field inoculations **136**

Rebecca L. Counts Phenotypic plasticity and genetic variability in annual *Zizania* spp. along a latitudinal gradient **145**

Hamed K. Abbas, R.F. Vesonder, C.D. Boyette, and S.W. Peterson Phytotoxicity of AAL-toxin and other compounds produced by *Alternaria alternata* to jimsonweed (*Datura stramonium*) **155**

A.U. Mallik Ecology of a forest weed of Newfoundland: vegetative regeneration strategy of *Kalmia angustifolia* **161**

M.M.I. Van Vuuren, F. Berendse, and W. De Visser Species and site differences in the decomposition of litters and roots from wet heathlands **167**

Douglas F. Bray, John R. Bagu, and Kazuo Nakamura Ultrastructure of *Chlamydomonas reinhardtii* following exposure to paraquat: comparison of wild type and a paraquat-resistant mutant **174**

Ernest Small, Gary R. Bauchan, Rosemary Salter, Brenda Brookes, and Geoff C. Auricht A systematic comparison of morphology and seed proteins of early- and late-flowering forms of *Medicago scutellata* **183**

Instructions to authors **v**

Recommandations aux auteurs **viii**

FEBRUARY/FÉVRIER

ARTICLES

George A. King Vegetation and pollen relationships in eastern Canada **193**

W.A. Charlton The rotated-lamina syndrome. I. Ulmaceae **211**

W.A. Charlton The rotated-lamina syndrome. II. The seedling of *Ulmus glabra* **222**

W.A. Charlton The rotated-lamina syndrome. III. Cases in *Begonia*, *Corylus*, *Magnolia*, *Pellionia*, *Prunus*, and *Tilia* **229**

J. Chong and J.A. Kolmer Virulence dynamics and phenotypic diversity of *Puccinia coronata* f.sp. *avenae* in Canada from 1974 to 1990 **248**

Jean Vallade, François Bugnon et Zhour Ibannain Interprétation morphologique de l'embryon chez les Embryophytes, avec application au cas des Graminées (Poaceae) **256**

Susan J. Read, E.B. Gareth Jones, and Stephen T. Moss Taxonomic studies of marine Ascomycotina: ultrastructure of the asci, ascospores, and appendages of *Savoryella* species **273**

R.J. Zeyen, G.G. Ahlstrand, and T.L.W. Carver X-ray microanalysis of frozen-hydrated, freeze-dried, and critical point dried leaf specimens: determination of soluble and insoluble chemical elements at *Erysiphe graminis* epidermal cell papilla sites in barley isolines containing *Ml-o* and *ml-o* alleles **284**

Melvin T. Tyree Theory of vessel-length determination: the problem of nonrandom vessel ends **297**

M.J. Morrison Heat stress during reproduction in summer rape **303**

M. Méndez and J.R. Obeso Size-dependent reproductive and vegetative allocation in *Arum italicum* (Araceae) **309**

Asim Esen and Khidir W. Hilu Prolamin and immunological studies in the Poaceae. IV. Subfamily Panicoideae **315**

Janet E. Cox and Douglas W. Larson Spatial heterogeneity of vegetation and environmental factors on talus slopes of the Niagara Escarpment **323**

M.R. Twiss, P.M. Welbourn, and E. Schwärtzel Laboratory selection for copper tolerance in *Scenedesmus acutus* (Chlorophyceae) **333**

Jun Liang Yang, Chi Yen, and Bernard R. Baum Three new species of the genus *Kengyilia* (Poaceae: Triticeae) from West China and new combinations of related species **339**

M. Yusoff, J. Koch, E.B. Gareth Jones, and S.T. Moss Ultrastructural observations on a marine lignicolous ascomycete: ***Bovicornua intricata*** gen. et sp.nov. **346**

Lawrence D. Harder, Mitchell B. Cruzan, and James D. Thomson Unilateral incompatibility and the effects of interspecific pollination for *Erythronium americanum* and *Erythronium albidum* (Liliaceae) **353**

NOTE

Timothy S.S. Conlin and Victor J. Lieffers Seasonal growth of black spruce and tamarack roots in an Alberta peatland **359**

MARCH/MARS

ARTICLES

C.J. Bird and J.P. van der Meer Systematics of economically important marine algae: a Canadian perspective **361**

Michel R. Nicole and Nicole Benhamou Pectin degradation during root decay of rubber trees by *Rigidoporus lignosus* **370**

M. Vieno, M. Komulainen, and S. Neuvonen Seed bank composition in a subarctic pine–birch forest in Finnish Lapland: natural variation and the effect of simulated acid rain **379**

P. Manimohan, E.B.G. Jones, and S.T. Moss Ultrastructural studies of ascospores of some *Remispora* species **385**

Jinliang Li, I. Brent Heath, and Laurence Packer The phylogenetic relationships of the anaerobic chytridiomycetous gut fungi (Neocallimasticaceae) and the Chytridiomycota. II. Cladistic analysis of structural data and description of **Neocallimasticales** ord.nov. **393**

Ravinder Gill, Jean M. Gerrath, and Praveen K. Saxena High-frequency direct somatic embryogenesis in thin layer cultures of hybrid seed geranium (*Pelargonium* ×*hortorum*) **408**

Joyce E. Longcore Morphology and zoospore ultrastructure of ***Lacustromyces hiemalis*** gen. et sp.nov. (Chytridiales) **414**

D. Yang, F. Plante, L. Bernier, Y. Piché, M. Dessureault, G. Laflamme, and G.B. Ouellette Evaluation of a fungal antagonist, *Phaeotheca dimorphospora*, for biological control of tree diseases **426**

Sharon Broadwater, Joe Scott, Dawn Field, Bill Saunders, and Jewel Thomas An ultrastructural study of cell division in the coralline red alga *Bossiella orbigniana* **434**

Zamir K. Punja Influence of culture conditions on mycelial growth and phialospore production and germination in *Chalara elegans* **447**

Bernard Jeune and Christian R. Lacroix A quantitative model of leaflet initiation illustrated by *Murraya paniculata* (Rutaceae) **457**

N.E. El-Gholl, A.C. Alfenas, P.W. Crous, and T.S. Schubert Description and pathogenicity of ***Cylindrocladium ovatum*** sp.nov. **466**

Jeanne C. Chambers Seed and vegetation dynamics in an alpine herb field: effects of disturbance type **471**

Bruce A. Ford, Peter W. Ball, and Kermit Ritland Genetic and macromorphologic evidence bearing on the evolution of members of *Carex* section *Vesicariae* (Cyperaceae) and their natural hybrids **486**

Thomas G. Brock Combined effects of hormones and light during growth promotion in primary leaves of *Phaseolus vulgaris* **501**

Alain Cousson and Kiem Tran Thanh Van Influence of ionic composition of the culture medium on de novo flower formation in tobacco thin cell layers **506**

B.A.D. Hetrick, G.W.T. Wilson, and T.S. Cox Mycorrhizal dependence of modern wheat cultivars and ancestors: a synthesis **512**

NOTE

B.J. van der Kamp Production of uredinia and telia by stalactiform blister rust in British Columbia **519**

APRIL/AVRIL

ARTICLES

Joanna Fraser and Eric G. Kokko Panicle, spikelet, and floret development in orchardgrass (*Dactylis glomerata*) **523**

R.E. Wilkinson, R.R. Duncan, S.A. Meredith, and K.K. Hatzios Growth and physiological responses of sorghum cultivars exposed to excess H^+ and the herbicide metolachlor **533**

G.N.M. Kumar and N. Richard Knowles Involvement of auxin in the loss of apical dominance and plant growth potential accompanying aging of potato seed tubers **541**

Jianhua Zhang and M.A. Maun Components of seed mass and their relationships to seedling size in *Calamovilfa longifolia* **551**

R. Miesch et P. Barnola Croissance rythmique endogène de la feuille de *Guarea guidonia* (Méliacées) : Étude préliminaire expérimentale **558**

Matteo Garbelotto, Thomas D. Bruns, Fields W. Cobb, and William J. Otrosina Differentiation of intersterility groups and geographic provenances among isolates of *Heterobasidion annosum* detected by random amplified polymorphic DNA assays **565**

M.M. West and J.N.A. Lott Studies of mature seeds of eleven *Pinus* species differing in seed weight. I. Element concentrations in embryos and female gametophytes **570**

M.M. West and J.N.A. Lott Studies of mature seeds of eleven *Pinus* species differing in seed weight. II. Subcellular structure and localization of elements **577**

R.E. Vaillancourt and N.F. Weeden Lack of isozyme similarity between *Vigna unguiculata* and other species of subgenus *Vigna* (Leguminosae) **586**

R.J. Reader and S.P. Bonser Control of plant frequency on an environmental gradient: effects of abiotic variables, neighbours, and predators on *Poa pratensis* and *Poa compressa* (Gramineae) **592**

Marek Kubik and Lech Michalczuk The influence of surfactants on transpiration of strawberry leaves **598**

Y. Elad, H. Yunis, and Hanne Volpin Effect of nutrition on susceptibility of cucumber, eggplant, and pepper crops to *Botrytis cinerea* **602**

D. Barry, G. Callot, M.C. Janex-Favre, A. Parguey-Leduc et J.C. Pargney Morphologie et structure des hyphes externes observées sur le péridium des *Tuber* à écailles : évolution au cours du développement de l'ascocarpe **609**

Marie-Charlotte Nilsson, Peter Högberg, Olle Zackrisson, and Wang Fengyou Allelopathic effects by *Empetrum hermaphroditum* on development and nitrogen uptake by roots and mycorrhizae of *Pinus silvestris* **620**

J. Dawson, Z.A. Wilson, M.G.M. Aarts, A.F. Braithwaite, L.G. Briarty, and B.J. Mulligan Microspore and pollen development in six male-sterile mutants of *Arabidopsis thaliana* **629**

B. Jayapal Gowdu and R. Balasubramanian Biocontrol potential of rust of groundnut by *Acremonium obclavatum* **639**

NOTE

N.J.W. Clipson and D.H. Jennings Erratum: *Dendryphiella salina* and *Debaryomyces hansenii*: models for ecophysical adaptation to salinity by fungi that grow in the sea **644**

MAY/MAI

ARTICLES

Linda Bonen and Gregory G. Brown Genetic plasticity and its consequences: perspectives on gene organization and expression in plant mitochondria **645**

Emmanuel Rincón Growth responses of six bryophyte species to different light intensities **661**

Roberto Ligrone, Keith Pocock, and Jeffrey G. Duckett A comparative ultrastructural study of endophytic basidiomycetes in the parasitic achlorophyllous hepatic *Cryptothallus mirabilis* and the closely allied photosynthetic species *Aneura pinguis* (Metzgeriales) **666**

Björn Berg, Charles McClaugherty, and Maj-Britt Johansson Litter mass-loss rates in late stages of decomposition at some climatically and nutritionally different pine sites. Long-term decomposition in a Scots pine forest. VIII **680**

Xiaoyuan Geng, John Pastor, and Bradley Dewey Decay and nitrogen dynamics of litter from disjunct, congeneric tree species in old-growth stands in northeastern China and Wisconsin **693**

Elida Stasovski and Carol A. Peterson Effects of drought and subsequent rehydration on the structure, vitality, and permeability of *Allium cepa* adventitious roots **700**

R.L. France, J. Svoboda, and H.W. Taylor Latitudinal distribution of cesium-137 fallout in 1990 on *Saxifraga oppositofolia* from Ellesmere Island, Canada **708**

Cheryl A. Ingersoll and Mark V. Wilson Buried propagule bank of a high subalpine site: microsite variation and comparisons with aboveground vegetation **712**

E.D. Ammar, R.E. Gingery, and L.R. Nault Cytopathology and ultrastructure of mild and severe strains of maize chlorotic dwarf virus in maize and johnsongrass **718**

Harry M.P. Kengen, Ton van Amstel, and Bart Knuiman Basket-shaped structures formed by F-actin in the nuclei of elongating cells of *Nicotiana tabacum* **725**

Olle Kellner Effects of nitrogen addition on the population dynamics and flowering of *Pulsatilla vernalis* 732

Barbara A. Zeeb and John P. Smol Chrysophycean stomatocyst flora from Elk Lake, Clearwater County, Minnesota 737

Shigehito Takenaka and Michiyoshi Arai Dynamics of three snow mold pathogens *Pythium paddicum*, *Pythium iwayamai*, and *Typhula incarnata* in barley plant tissues 757

JUNE/JUIN

REVIEW / SYNTHÈSE

S.D. Blakeley and D.T. Dennis Molecular approaches to the manipulation of carbon allocation in plants 765

ARTICLES

P. Damase Khasa, William M. Cheliak, and Jean Bousquet Mating system of *Racosperma auriculiforme* in a seed production area in Zaire 779

M.J. van Hezewijk, A.P. van Beem, J.A.C. Verkleij, and A.H. Pieterse Germination of *Orobanche crenata* seeds, as influenced by conditioning temperature and period 786

Dorothea Rütten and Kurt A. Santarius Cryoprotection of *Plagiomnium affine* induced by various natural and artificial substances 793

Burton V. Barnes and Fuqing Han Phenotypic variation of Chinese aspens and their relationships to similar taxa in Europe and North America 799

Yolanda Herrera-Arrieta and William F. Grant Correlation between generated morphological character data and flavonoid content of species in the *Muhlenbergia montana* complex 816

Julian L. Hadley, Robert G. Amundson, J.A. Laurence, and R.J. Kohut Red spruce bud mortality at Whiteface Mountain, New York 827

G. Serrato-Valenti, L. Cornara, M. Ferrando, and P. Modenesi Structural and histochemical features of *Stylosanthes scabra* (Leguminosae; Papilionoideae) seed coat as related to water entry 834

Timothy J. Tschaplinski and Richard J. Norby Physiological indicators of nitrogen response in a short rotation sycamore plantation. II. Nitrogen metabolism 841
